

# Can you name the parts of the ear?

Ear Drum

Cochlea

Anvil

Eustachian tube

Stirrup

Auricle

Hammer

Ear canal

**Did you know...**

**The ear's hammer, anvil and stirrup are the smallest bones in the human body!**

**FUN FACT!**

When tiny germs get into our ears, they can really hurt. If sore ears get worse, you might get hearing loss and speech problems. Our researchers are studying ear infections and trying to find ways to prevent them.

# Can you name the parts of the ear?

**ANSWERS!**
